Recruitment Crisis Averted: Introducing the Teacher Apprenticeship

I can't find candidates to fill my teacher vacancies, and the applicants I do get lack the adequate qualifications or perform poorly at interview!

I want to teach but the course fees and living costs required to gain QTS are beyond my means.

I advertised a vacancy and took on an apprentice teacher. We received a grant to cover their salary and used our levy to fund their training. We gained a qualified teacher and molded them to our school.

Advertising vacancies

Tell us who you're after

Vacancy advertised

We screen & interview all applicants

You review applicants and conduct employment interviews

We support you to access funding and enrol trainee

Upskill existing staff
